

The Center for COVID-19 Situation Administration (CCSA) revealed the COVID-19 vaccine procurement plan for Thailand in the daily briefing on 23 February 2021, stating that 200,000 doses of the Sinovac vaccine will arrive in the Kingdom on 24 February. The other 1.8 million doses will arrive by April 2021, while 600,000 doses of AstraZeneca will arrive in June and another 55 million will arrive from July to December 2021. CCSA has reassured the public that the Department of Medical Sciences has already prepared the laboratory for inspecting the quality of the first batch of SinoVac, to make sure that the public will get a qualified vaccine. They will get the results in three days. (23/2/2021)
